Hello SKIF-USA member dojos,

Following suggestions from our recent member dojo survey, the Board of Directors hope to increase SKIF-USA's presence on social media as a way to better connect our members to each other. While some of you may not currently participate in such things as Facebook, Twitter or Instagram, we would like to encourage your dojo to consider social media to bring together our organization.

As such, SKIF-USA has created profiles on different social media platforms and hope that you will connect with them. We hope to use these platforms to engage with members regarding upcoming events, happenings and a sense of community among our members. However, we are aware of other Facebook groups/pages claiming to represent SKIF-USA. We want to let our members know the official & only group representing SKIF-USA is:

<https://www.facebook.com/groups/skifusa/>

This group is moderated and controlled by the Board of Directors. Other pages/groups claiming to represent SKIF-USA on Facebook are not recognized members of SKIF-USA or SKIF. We advise caution when posting, responding to or reading anything on other pages/groups purporting to represent SKIF-USA. SKIF-USA also now has accounts on Twitter (@skif_usa) and Instagram (skif_usa). Please connect with us on these platforms. A word of caution: please practice respectful behavior on these channels. All our students, young and old will be able to see what is posted. The best advice is to remember not to post anything in social media that you wouldn't say in the dojo.

Thank you.
OSS!

SKIF USA
